Operations & Coordination
Warehouse Supervision | Cross-Functional Team Leadership | Multi-Stakeholder Resolution | Quality Control | Safety Compliance

LANGUAGES

Arabic — Native
English — Intermediate (B2)

PROFILE

Accounting & Operations Professional with hands-on experience in ERP systems (ERPNext, Odoo, Microsoft Dynamics GP/RMS), stock control, and financial validation. Currently working in accounting operations with a project management firm in Kuwait. Self-taught in workflow automation (n8n, Google Apps Script, Docker) and AI tooling, bridging finance accuracy with process efficiency.

PROFESSIONAL EXPERIENCE

Accountant
XPAND Project Management — leading Kuwaiti industrial consultancy | Remote | Oct 2026 – Present
- Manage day-to-day accounting operations in Odoo ERP for a consultancy supervising 750M+ KWD in industrial projects, including AP/AR entries, invoice verification, and reconciliations
- Support feasibility studies and financial reporting: prepare company valuations, investment evaluations, and industrial cost analyses in line with corporate accounting standards
- Coordinate with project management teams on job costing, budget tracking, and cross-functional financial reporting for SME industrial clients across Kuwait and the Gulf

Financial Accuracy & Tax Logic Specialist (Project-Based Contract)
TELUS Digital — AI Community, global AI training data provider | Remote | Jun 2026 – Nov 2026
- Validated AI-generated financial outputs including balance sheets, P&L statements, and tax calculations for mathematical accuracy and regulatory compliance
- Audited VAT and country-specific tax logic, flagging double-billing patterns, data anomalies, and compliance risks before client delivery
- Applied rigorous analytical discipline to validate large datasets under tight deadlines, maintaining high data integrity standards across all reviewed outputs

Stock Controller
Seoudi Supermarket — leading Egyptian retail chain (est. 1938) | Main Warehouse, On-site | Jan 2026 – Mar 2026
- Supervised warehouse inventory team, overseeing end-to-end goods receiving and product data entry in Microsoft Dynamics GP and RMS
- Reconciled physical stock bins against system records, resolving quantity and pricing discrepancies prior to accounts payable handoff
- Monitored expiry date compliance and oversaw removal of expired products to reduce write-off risk
- Coordinated cross-functional communication between warehouse, purchasing, and finance teams for timely order fulfillment

Back Office Chat Advisor
EGS (Etisalat Global Services) — BPO & contact center arm of e& | On-site | Oct 2025 – Dec 2025
- Managed high-volume outbound call queue (~90% of role) to track order status and resolve real-time issues on Keeta, Meituan's international food delivery platform
- Maintained accurate customer and transaction records in CRM systems across merchant, delivery, and customer datasets
- Coordinated rapid issue resolution between multiple stakeholders in a fast-paced environment, ensuring smooth fulfillment and customer satisfaction

Property Advisor
The Address Investments — leading Egyptian real estate brokerage | On-site | Jun 2025 – Aug 2025
- Managed full sales cycle from lead contact through deal closure for residential projects (apartments, villas, townhouses)
- Conducted needs-based consultations and product demonstrations, tailoring unit recommendations to client budgets and preferences
- Served as primary point of contact during contract negotiation, ensuring clear documentation and transparent communication

Site Supervisor
Elmowafy Air Conditioning | On-site | 2023 – 2025 (Part-time during studies)
- Supervised technical crews across multiple HVAC installation and maintenance sites, enforcing safety and quality standards
- Tracked job-related site costs, labor hours, and material usage, scheduling workflows to meet project deadlines and budget parameters

Freelance Real Estate Broker (Rentals)
Self-Employed | Field-based | 2016 – 2022
- Managed independent property brokerage for 6 years, handling full cycle from lead generation to contract negotiation
- Built and maintained a self-sourced client network, developing strong negotiation and business development skills

KEY PROJECTS

Content Pipeline — Local AI Video Generator (v2.1.1) — Designed, built, and shipped a fully local Windows desktop app (Electron) that turns a topic into a captioned vertical short-form video in Arabic or English: Ollama local-LLM scriptwriting, offline Piper TTS voices, multi-source stock images (Pexels/Pixabay/Wikimedia), and FFmpeg 1080×1920 rendering with Arabic RTL captions, Ken Burns motion, and music ducking; fixed 12+ bugs across 17 release cycles (OOM-corrupted renders, zoompan frame bug, Arabic caption shaping)

Local AI Assistant System — Architected and deployed a fully local AI assistant running multiple open-source LLMs via Ollama and LM Studio inside Docker containers; drove AI-assisted troubleshooting of model and hardware issues, memory and context-window optimization, and infrastructure scaling across iterative hardware upgrades

Dropshipping Automation Architecture — Egypt Edition — Designed the complete business architecture and AI implementation specification for an automated dropshipping operation: 6 selling platforms, a 6-supplier network, and a dual payment flow (2Checkout + Payoneer to CIB Egypt, replacing unsupported Stripe); specified 12 n8n workflow modules, a full P&L financial model, and an operational risk assessment

AI Content Automation System — Designed the architecture of a fully automated multi-platform content engine — 5 short-form videos/day across YouTube Shorts, TikTok, Instagram, and Facebook Reels via Claude scriptwriting, ElevenLabs voiceover, and n8n Cloud orchestration; specified AI comment auto-reply, viral-analysis loops, playlist management, and a toggleable paid-marketing module
